Dr. Ethan Russo: 1% Is a ' Scientifically Defensible ' THC

The history of cannabis and its usage by humans dates back to at least the third millennium BC in written history, and possibly further back by archaeological evidence. For millennia, the plant has been valued for its use for fiber and rope, as food and medicine, and for its psychoactive properties for religious and recreational use.

Cannabis in Mexico is illegal, though the Supreme Court of Mexico declared the law prohibiting its use unconstitutional on October 31, 2018. The effect of the ruling is that the law was generally made unenforceable and that the government of Mexico must act to formally legalize cannabis within a period of 90 days.
