The Journey and Promise of African American Preaching

In this study, Marinova examines the diverse practices of crossing boundaries, tactics of translation, and experiences of double and multiple political and national attachments evident in texts about Russo-American encounters from the end of the American Civil War to the Russian Revolution of 1905. Marinova brings together published writings, archival materials, and personal correspondence of well or less known travelers of diverse ethnic backgrounds and artistic predilections: from the quintessential American Mark Twain to the Russian-Jewish ethnographer and revolutionary Vladimir Bogoraz; from masters of realist prose such as the Ukrainian-born Vladimir Korolenko and the Jewish-Russian-American Abraham Cahan, to romantic wanderers like Edna Proctor, Isabel Hapgood or Grigorii Machtet. By highlighting the reification of problematic stereotypes of ethnic and racial difference in these texts, Marinova illuminates the astonishing success of the Cold War period's rhetoric of mutual hatred and exclusion, and its continuing legacy today.

Returns of War

Most Americans saw President Bill Clinton and Speaker Newt Gingrich as staunch foes--"the polar extremes of Pennsylvania Avenue." But as Steven Gillon reveals in *The Pact*, these powerful adversaries formed a secret alliance in 1997, a pact that would have rocked the political landscape, had it not foundered in the wake of the Lewinsky scandal. A fascinating look at politics American-style, *The Pact* offers a riveting account of two of America's most charismatic and influential leaders, detailing both their differences and their striking similarities, and highlighting the profound and lasting impact the tumultuous 1960s had on both their personal and political lives. With the cooperation of both President Clinton and

Speaker Gingrich, interviews with key players who have never before spoken about their experiences, along with unprecedented access to Gingrich's private papers, Gillon not only offers a behind-the-scenes look at the budget impasse and the government shutdown in 1995--the famous face-off between Clinton and Gingrich--but he also reveals how the two moved closer together after 1996--closer than anyone knew. In particular, the book illuminates their secret efforts to abandon the liberal and conservative wings of their own parties and strike a bi-partisan deal to reform the "third rail of American politics"--Social Security and Medicare. That potentially groundbreaking effort was swept away by the highly charged reaction to the Lewinsky affair, ending an initiative that might have transformed millions of American lives. Packed with compelling new revelations about two of the most powerful and intriguing figures of our time, this book will be must reading for everyone interested in politics or current events.

Frontiers of Boyhood

Class

When Horace Greeley published his famous imperative, "Go West, young man, and grow up with the country," the frontier was already synonymous with a distinctive type of idealized American masculinity. But Greeley's exhortation also captured popular sentiment surrounding changing ideas of American boyhood; for many educators, politicians, and parents, raising boys right seemed a pivotal step in securing the growing nation's future. This book revisits these narratives of American boyhood and frontier mythology to show how they worked against and through one another—and how this interaction shaped ideas about national character, identity, and progress. The intersection of ideas about

boyhood and the frontier, while complex and multifaceted, was dominated by one arresting notion: in the space of the West, boys would grow into men and the fledgling nation would expand to fulfill its promise. *Frontiers of Boyhood* explores this myth and its implications and ramifications through western history, childhood studies, and a rich cultural archive. Detailing surprising intersections between American frontier mythology and historical notions of child development, the book offers a new perspective on William “Buffalo Bill” Cody’s influence on children and childhood; on the phenomenon of “American Boy Books”; the agency of child performers, differentiated by race and gender, in Wild West exhibitions; and the cultural work of boys’ play, as witnessed in scouting organizations and the deployment of mass-produced toys. These mutually reinforcing and complicating strands, traced through a wide range of cultural modes, from social and scientific theorizing to mass entertainment, lead to a new understanding of how changing American ideas about boyhood and the western frontier have worked together to produce compelling stories about the nation’s past and its imagined future.

For those who have ever wondered why we have trees in cities or what makes the layout of cities like Paris and Amsterdam seem so memorable, *City Trees: A Historical Geography from the Renaissance through the Nineteenth Century* by Henry W. Lawrence provides a comprehensive and handsome guide to the history of trees in urban landscapes. Covering four centuries of development in the cities of Europe and America, this book shows how trees became integral to urban landscapes by looking at the historical evolution of the spaces in which they were planted and how these spaces were used. Reflecting on the impact trees have

had on what many consider to be the fundamental aspects of city life--people, buildings, social and economic activity--Lawrence draws on graphic materials, written descriptions, local histories, and archival research to provide a unique look at the tree's role in urban landscape history. Primarily concerned with aesthetics, power, and national traditions, Lawrence reflects on the differing impacts city trees have had on multiple aspects of culture, from their roles as symbols and their representation of economic prosperity to the differing ways nations planted their trees, which gradually blended into an international style of urban planting. Complete with fascinating illustrations, *City Trees* will appeal to those interested in urban history and geography as well as the general public interested in cities, cultural history, and landscape design.

One of the most progressive movements for “Freedom, Justice and Equality” in African American history has been Islam. Transported into America among the very first slaves, it has survived for four centuries under the most difficult of circumstances. Yet, it has produced some of the most influential leaders among Black Americans including Elijah Muhammad, Malcolm X, Imam Warithu Deen Mohammed, Louis Farrakhan and many others. In *A Black Man’s Journey in America: Glimpses of Islam, Conversations and Travels*, I have placed my family’s history within the context of that Islamic heritage. Further, I have attempted to unravel the method through which African American Muslims were so often forced to embrace as a means of survival.

The Journey Home

The legacy and memory of wartime South Vietnam through the eyes of Vietnamese refugees In 1975, South Vietnam fell to communism, marking a stunning conclusion to the Vietnam War. Although this former ally of the United States has vanished from the world map, Long T. Bui maintains that its memory endures for refugees with a strong attachment to this ghost country. Blending ethnography with oral history, archival research, and cultural analysis, *Returns of War* considers how the historical legacy of a nation that only existed for twenty years is being kept alive by its dispersed stateless exiles. *Returns of War* argues that Vietnamization--as Richard Nixon termed it in 1969--and the end of South Vietnam signals more than an example of flawed American military strategy, but a larger allegory of power, providing cover for U.S. imperial losses while denoting the inability of the (South) Vietnamese and other colonized nations to become independent, modern liberal subjects. Bui argues that the collapse of South

Vietnam under Vietnamization complicates the already difficult memory of the Vietnam War, pushing for a critical understanding of South Vietnamese agency beyond their status as the war's ultimate "losers." Examining the lasting impact of Cold War military policy and culture upon the "Vietnamized" afterlife of war, this book weaves questions of national identity, sovereignty, and self-determination to consider the generative possibilities of theorizing South Vietnam as an incomplete, ongoing search for political and personal freedom.

The American Journey

Bill Clinton, forty-second president of the United States, is the quintessential baby boomer: on the one hand blessed with a near-genius IQ, on the other, beset by character flaws that made his presidency a veritable soap opera of high ideals, distressing incompetence, model financial stewardship, and domestic misbehavior. In an era of cultural civil war, the Clinton administration fed the public an almost daily diet of scandal and misfortune. Who is Bill Clinton, though, and how did this baby-boom saga begin? Clinton's upbringing in Arkansas and his student years at Georgetown, Oxford, and Yale universities help us to see his life not only as a personal story but as the story of modern America. Behind the closed doors of the house on the hill above Park Avenue in Hot Springs, the struggle between Clinton's stepfather and mother became ultimately unbearable, causing Virginia to move out and divorce Roger Clinton. Dreading confrontation, Bill Clinton excelled in almost every field save athletics. But the fabled success of the scholarship boy would be marred by the decisions he came to make regarding Vietnam and military service—choices that haunt him to this day. We watch with a mixture of alarm, fascination, and awe as Bill Clinton does so much that is right—and so much that is wrong. He sets his cap for

the star student at Yale, young Hillary Rodham, seducing her with his dreams of a better America and an aw-shucks grin. Wherever he goes, he charms and disarms—young and old, men and women and more women. He becomes a law professor straight out of college; he contests a congressional election in his twenties—and almost wins it. He becomes attorney general of his state and within two years is set to become the youngest-ever governor of Arkansas, at only thirty-two. Yet, always, there is a curse, a drive toward personal self-destruction—and with that the destruction of all those who are helping him on his legendary path. His affair with Gennifer Flowers strains his marriage and later nearly scuttles his bid for the presidency. He is thrown out of the governor's office after only one term and suffers a life-shaking crisis of confidence. Though with the stalwart help of a female chief of staff he regains his crown, it is clear that Bill Clinton's charismatic career is a ceaseless tightrope walk above the forces that threaten to pull him down—the most potent of them residing in his own being. Imbued with sympathy, deep intelligence, and the storyteller's art, this extraordinary biography helps us, at last, to understand the real Bill Clinton as he stumbles and withdraws from the 1988 presidential nomination race but enters it four years later, to make one of the most astonishing bids for the presidency in the twentieth century: the climax of this gripping political, social, and scandalous journey.

Jack Kerouac's American Journey

When Mary Beth McIntire settles into a vacation house on June 2, 2017, she anticipates a quiet morning with coffee. Then she hears a

noise, peers out a window, and spots a man in 1950s attire standing in the backyard. She panics when the trespasser sees her and enters the house through a door to the basement. She questions her sanity when she cannot find him. In the same house on March 21, 1959, Mark Ryan finds a letter. Written by the mansion's original owner in 1900, the letter describes a basement chamber, mysterious crystals, and a formula for time travel. Driven by curiosity, Mark tests the formula twice. On his second trip to 2017, he encounters a beautiful stranger. He meets the woman in the window. Within hours, Mary Beth and Mark share their secret with her sister and his brother and begin a journey that takes them from the present day to the age of sock hops, drive-ins, and jukeboxes. In CLASS OF '59, the fourth book in the American Journey series, four young adults find love, danger, and adventure as they navigate the corridors of time and experience Southern California in its storied prime.
