Religion Index Two

This voluminous work on Church History by Philip Schaff (1819-1893) was originally published between 1858 and 1893 in eight volumes in the USA and covers the period from the beginnings of Biblical Christianity in A.D. 1 to the History of the Reformation in Germany and Switzerland (1517-1648). Being still a popular text in North America, this work had been out of print for over a century and has now been carefully edited and reformatted for republication in four volumes, each of them containing the text of two volumes of the original edition. Schaff ' s work, unlike other works in the field, covers a multitude of church history-related aspects - from church doctrine, policy, events and processes to aspects of social moral and family life, arts and more. This is the fourth and final volume in this series and is a special edition covering the period of the Reformation from 1517-1648 that ends with the Peace Treaty concluded 1648 in M ünster, Westphalia, following the long period of the Thirty-Year War.

Knotenpunkt Byzanz

TransAntiquity

This book has been considered by academicians and scholars of great significance and value to literature. This forms a part of

the knowledge base for future generations. So that the book is never forgotten we have represented this book in a print format as the same form as it was originally first published. Hence any marks or annotations seen are left intentionally to preserve its true nature.

Religion in Ancient Etruria

The Dictionary of Deities and Demons in the Bible (DDD) is the single major reference work on the gods, angels, demons, spirits, and semidivine heroes whose names occur in the biblical books. Book jacket.

Infinity

The Greek statesman Polybius (c.200 – 118 BC) wrote his account of the relentless growth of the Roman Empire in order to help his fellow countrymen understand how their world came to be dominated by Rome. Opening with the Punic War in 264 BC, he vividly records the critical stages of Roman expansion: its campaigns throughout the Mediterranean, the temporary setbacks inflicted by Hannibal and the final destruction of Carthage. An active participant of the politics of his time as well as a friend of many prominent Roman citizens, Polybius drew on many eyewitness accounts in writing this cornerstone work of history.

Fictionalizing heterodoxy

This lively translation of *Devins, Dieux et Démones* is the first English-language edition of Jean-René Jannot's highly informative examination of Etruscan religion. Jannot tackles this elusive subject within three major constructs—death, ritual, and the nature of the gods—and presents recent discoveries in an accessible format. Jane K. Whitehead's translation updates Jannot's innovative text and introduces readers of all types—students, scholars, and the general audience—to this thorough overview of ancient Etruscan beliefs, including the afterlife, funerary customs, and mythology. Provocative insights and thoughtful discussions contribute to an understanding of the prophetic nature of Etruscan culture. Jannot investigates the elaborate systems of defining space and time that so distinctly characterize this ancient society. *Religion in Ancient Etruria* offers a unique perspective that illuminates the origins of some of our own "modern" religious beliefs. This updated edition includes more than 100 illustrations that demonstrate early temples, statues, mirrors, tablets, and sculptures. 1998 French edition, Picard

Confucius and Cicero

This classic work provides a continuous account of the whole of Greek literature in one volume. Particularly useful for the

student are the careful summaries of the works dealt with and the judicious accounts of scholarly controversy on the more hotly debated points. First published in German in 1958, the book was extensively rewritten for the second edition in 1963, from which this translation, which was originally published by Methuen in 1966, was made. This new reprint makes it available once again to student and anyone with an interest in this formative period of literary history. From publisher's description.

Dictionary of Deities and Demons in the Bible

Explores four key questions around Roman funerary customs that change our view of the society and its values.

The Orphic Hymns

Delving deeply into ancient medical history, Bronwen L. Wickkiser explores the early development and later spread of the cult of Asklepios, one of the most popular healing gods in the ancient Mediterranean. Though Asklepios had been known as a healer since the time of Homer, evidence suggests that large numbers of people began to flock to the cult during the fifth century BCE, just as practitioners of Hippocratic medicine were gaining dominance. Drawing on close readings of period medical texts, literary sources, archaeological evidence, and earlier studies, Wickkiser finds two primary causes for the cult's ascendance: it filled a gap in the market created by the refusal of Hippocratic physicians to treat difficult chronic ailments and it abetted Athenian political needs. Wickkiser supports these challenging theories with side-by-side examinations of the medical practices at Asklepios' sanctuaries and those espoused in Hippocratic medical treatises. She also explores how Athens' aspirations to empire influenced its decision to open the city to the healer-god's cult. In focusing on the fifth century and by considering the medical, political, and religious dimensions of the cult of Asklepios, Wickkiser presents a complex, nuanced picture of Asklepios' rise in popularity, Athenian society, and ancient Mediterranean culture. The intriguing and sometimes surprising information she presents will be valued by historians of medicine and classicists alike.

The Unnamable Present

At the very beginnings of the Archaic Age, the great singer Orpheus taught a new religion that centered around the immortality of the human soul and its journey after death. He felt that achieving purity by avoiding meat and refraining from committing harm further promoted the pursuit of a peaceful life. Elements of the worship of Dionysus, such as shape-shifting and ritualistic ecstasy, were fused with Orphic beliefs to produce a powerful and illuminating new religion that found expression in the mystery cults. Practitioners of this new religion composed a great body of poetry, much of which is translated in The Orphic Hymns. The hymns presented in this book were anonymously composed somewhere in Asia Minor, most likely in the middle of the third century AD. At this turbulent time, the Hellenic past was fighting for its survival, while the new Christian faith was

spreading everywhere. The Orphic Hymns thus reflect a pious spirituality in the form of traditional literary conventions. The hymns themselves are devoted to specific divinities as well as to cosmic elements. Prefaced with offerings, strings of epithets invoke the various attributes of the divinity and prayers ask for peace and health to the initiate. Apostolos N. Athanassakis and Benjamin M. Wolkow have produced an accurate and elegant translation accompanied by rich commentary.

Looking at Greek Vases

Virgin Mother Goddesses of Antiquity

Tyndale 's Bible is credited with being the first English translation to work directly from Hebrew and Greek texts. Furthermore, it was the first English biblical translation that was mass-produced as a result of new advances in the art of printing. The term Tyndale's Bible is not strictly correct, because Tyndale never published a complete Bible.

Daphnis and Chloe

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Ancient Greek Cults

This interdisciplinary study of infinity explores the concept through the prism of mathematics and then offers more expansive investigations in areas beyond mathematical boundaries to reflect the broader, deeper implications of infinity for human intellectual thought. More than a dozen world-renowned researchers in the fields of mathematics, physics, cosmology, philosophy and theology offer a rich intellectual exchange among various current viewpoints, rather than displaying a static picture of accepted views on infinity. The book starts with a historical examination of the transformation of infinity from a

philosophical and theological study to one dominated by mathematics. It then offers technical discussions on the understanding of mathematical infinity. Following this, the book considers the perspectives of physics and cosmology: can infinity be found in the real universe? Finally, the book returns to questions of philosophical and theological aspects of infinity.

Pausanias's Description of Greece

An anthology of classical literature features more than three hundred pieces, representing the foundation of Western literature, as well as commentary that discusses the origins of Greek language, Homer, the fall of Rome, and more.

The Didascalicon of Hugh of St. Victor

A decisive key to help grasp some of the essential points of what is happening around us. The ninth part of Roberto Calasso ' s work in progress, *The Unnamable Present*, is closely connected with themes of the first book, *The Ruin of Kasch* (originally published in 1983, and recently reissued by FSG in a new translation). But while *Kasch* is an enlightened exploration of modernity, *The Unnamable Present* propels us into the twenty first century. Tourists, terrorists, secularists, fundamentalists, hackers, transhumanists, algorithmicians: these are all tribes that inhabit the unnamable present and act on its nervous system. This is a world that seems to have no living past, but was foreshadowed in the period between 1933 and 1945, when everything appeared bent on self-annihilation. *The Unnamable Present* is a meditation on the obscure and ubiquitous process of transformation happening today in all societies, which makes so many previous names either inadequate or misleading or a parody of what they used to mean. Translated with sensitivity by Calasso ' s longtime translator, Richard Dixon, *The Unnamable Present* is a strikingly original and provocative vision of our times, from the writer *The Paris Review* called " a literary institution of one. "

The Care of Books

"*The Care of Books*" by John Willis Clark. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten – or yet undiscovered gems – of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

Roman Tombs and the Art of Commemoration

School Library Journal Best Books of 2011 Eureka! Silver Honor Books—California Reading Association Capitol Choices 2012 list of Noteworthy Titles for Children and Teens 2012 Notable Children's Books—ALSC The new National Geographic Treasury of Greek Mythology offers timeless stories of Greek myths in a beautiful new volume. Brought to life with lyrical text by award-winning author Donna Jo Napoli and stunning artwork by award-winning illustrator Christina Balit, the tales of gods and goddesses such as Zeus, Aphrodite, Apollo, and Athena and heroes and monsters such as Helen of Troy, Perseus, and Medusa will fascinate and engage children's imaginations. National Geographic completes the book with embellishments of each story: sidebars for each god, goddess, hero, and monster link the myths to constellations, geography, history, and culture to help young readers connect the stories to real life events, people, and places. A family tree and a "cast of characters" profile page help make relationships between the characters clear, and a mapping feature adds to the fun and fascination. Resource notes and ample back matter directing readers to more information round out this luminous book. Sure to dazzle all those intrigued with the fantastic tales of Greek mythology and enchant new readers, this vibrant book will soon become a family keepsake. National Geographic supports K-12 educators with ELA Common Core Resources. Visit www.natgeoed.org/commoncore for more information.

Synonyms of the New Testament

The first anthology to present the entire range of ancient Greek and Roman stories—from myths and fairy tales to jokes Captured centaurs and satyrs, incompetent seers, people who suddenly change sex, a woman who remembers too much, a man who cannot laugh—these are just some of the colorful characters who feature in the unforgettable stories that ancient Greeks and Romans told in their daily lives. Together they created an incredibly rich body of popular oral stories that include, but range well beyond, mythology—from heroic legends, fairy tales, and fables to ghost stories, urban legends, and jokes. This unique anthology presents the largest collection of these tales ever assembled. Featuring nearly four hundred stories in authoritative and highly readable translations, this is the first book to offer a representative selection of the entire range of traditional classical storytelling. Complete with beautiful illustrations, this one-of-a-kind anthology will delight general readers as well as students of classics, fairy tales, and folklore.

The Cult of Divine Birth in Ancient Greece

This book, first published in 1991, offers suggestions on how to read the often complex images presented by ancient Greek vases.

Gospel Principles

This volume casts a new light on Byzantium as a geographical and cultural intersection. For nearly a millennium, Byzantium was an important crossroads where cultures, people, and institutions from the entire Mediterranean area came together. Key subjects of interest explored by this volume include reciprocal cultural and epistemic processes of reception and transformation and the forms of knowledge associated with them.

Treasury of Greek Mythology

This book explores the relationships between ancient Roman and Confucian thought, paying particular attention to their relevance for the contemporary world. More than 10 scholars from all around the world offer thereby a reference work for the comparative research between Roman (and early Greek) and Eastern thought, setting new trends in the panorama of Classical and Comparative Studies.

A History of Greek Literature

TransAntiquity explores transgender practices, in particular cross-dressing, and their literary and figurative representations in antiquity. It offers a ground-breaking study of cross-dressing, both the social practice and its conceptualization, and its interaction with normative prescriptions on gender and sexuality in the ancient Mediterranean world. Special attention is paid to the reactions of the societies of the time, the impact transgender practices had on individuals' symbolic and social capital, as well as the reactions of institutionalized power and the juridical systems. The variety of subjects and approaches demonstrates just how complex and widespread "transgender dynamics" were in antiquity.

De Sphaera of Johannes de Sacrobosco in the Early Modern Period

Synonyms Of The New Testament

Random Tangents: Embracing Adventures in Life

The information overload produced by the printing press and the new forms of the structuring of knowledge are echoed in fictional works. The essays assembled in this book study the textualization of problematic forms of knowledge in medieval and early modern Spanish literature. Literary Works like the Libro buen amor, La Lozana Andaluza, or the Guzmán de Alfarache are read against the backdrop of scientific developments of their times.

The Rise of the Roman Empire

A landmark anthology of the masterpieces of Greek drama, featuring all-new, highly accessible translations of some of the world's most beloved plays, including Agamemnon, Prometheus Bound, Bacchae, Electra, Medea, Antigone, and Oedipus the King. Featuring translations by Emily Wilson, Frank Nisetich, Sarah Ruden, Rachel Kitzinger, Mary Lefkowitz, and James Romm. The great plays of Ancient Greece are among the most enduring and important legacies of the Western world. Not only is the influence of Greek drama palpable in everything from Shakespeare to modern television, the insights contained in Greek tragedy have shaped our perceptions of the nature of human life. Poets, philosophers, and politicians have long borrowed and adapted the ideas and language of Greek drama to help them make sense of their own times. This exciting curated anthology features a cross section of the most popular--and most widely taught--plays in the Greek canon. Fresh translations into contemporary English breathe new life into the texts while capturing, as faithfully as possible, their original meaning. This outstanding collection also offers short biographies of the playwrights, enlightening and clarifying introductions to the plays, and helpful annotations at the bottom of each page. Appendices by prominent classicists on such topics as "Greek Drama and Politics," "The Theater of Dionysus," and "Plato and Aristotle on Tragedy" give the reader a rich contextual background. A detailed time line of the dramas, as well as a list of adaptations of Greek drama to literature, stage, and film from the time of Seneca to the present, helps chart the history of Greek tragedy and illustrate its influence on our culture from the Roman Empire to the present day. With a veritable who's who of today's most renowned and distinguished classical translators, The Greek Plays is certain to be the definitive text for years to come. Praise for The Greek Plays "Mary Lefkowitz and James Romm deftly have gathered strong new translations from Frank Nisetich, Sarah Ruden, Rachel Kitzinger, Emily Wilson, as well as from Mary Lefkowitz and James Romm themselves. There is a freshness and pungency in these new translations that should last a long time. I admire also the introductions to the plays and the biographies and annotations provided. Closing essays by five distinguished classicists--the brilliant Daniel Mendelsohn and the equally skilled David Rosenbloom, Joshua Billings, Mary-Kay Gamel, and Gregory Hays--all enlightened me. This seems to me a helpful light into our gathering darkness."--Harold Bloom

„ And on this Rock I Will Build My Church “ . A New Edition of Schaff ' s „ History of the Reformation 1517-1648 “

Pindar's Odes

The writings of the Greeks and Romans form the bedrock of Western culture. Inventing the molds for histories, tragedies, and philosophies, while pioneering radical new forms of epic and poetry, the Greeks and Romans created the literary world we still

inhabit today. Writing with verve and insight, distinguished classicist Richard Jenkyns explores a thousand years of classical civilization, carrying readers from the depths of the Greek dark ages through the glittering heights of Rome ' s empire. Jenkyns begins with Homer and the birth of epic poetry before exploring the hypnotic poetry of Pindar, Sappho, and others from the Greek dark ages. Later, in Athens ' s classical age, Jenkyns shows the radical nature of Sophocles ' s choice to portray Ajax as a psychologically wounded warrior, how Aeschylus developed tragedy, and how Herodotus, in “ inventing history, ” brought to narrative an epic and tragic quality. We meet the strikingly modern figure of Virgil, struggling to mirror epic art in an age of empire, and experience the love poems of Catullus, who imbued verse with obsessive passion as never before. Even St. Paul and other early Christian writers are artfully grounded here in their classical literary context. A dynamic and comprehensive introduction to Greek and Roman literature, Jenkyns ' s Classical Literature is essential reading for anyone seeking a deeper understanding of the classics—and the extraordinary origins of Western culture.

The Norton Book of Classical Literature

For many years, Homeric Greek has been a standard textbook for first-year Greek courses in college and preparatory schools. This fourth edition addresses the needs of today's teachers and students, while retaining those elements of the original book responsible for its longevity.

Homeric Greek

Using archaeological, epigraphic, and literary sources; and incorporating current scholarly theories, this volume will serve as an excellent companion to any introduction to Greek mythology, showing a side of the Greek gods to which most students are rarely exposed. Detailed enough to be used as a quick reference tool or text, and providing a readable account focusing on the oldest, most widespread, and most interesting religious practices of the ancient Greek world in the Archaic and Classical periods, Ancient Greek Cults surveys ancient Greek religion through the cults of its gods and goddesses, heroes and heroines. Jennifer Larson conveniently summarizes a vast amount of material in many languages, normally inaccessible to undergrad students, and explores, in detail, the variety of cults celebrated by the Greeks, how these cults differed geographically, and how each deity was conceptualized in local cult titles and rituals. Including an introductory chapter on sources and methods, and suggestions for further reading this book will allow readers to gain a fresh perspective on Greek religion.

Asklepios, Medicine, and the Politics of Healing in Fifth-Century Greece

This is the first complete translation into English of Hugh of Saint Victor's Didascalicon. Composed in the late 1130s, the Didascalicon selects and defines all of the important areas of knowledge, demonstrating that not only are these areas

essentially integrated, but that in their integrity they are necessary for the attainment of human perfection and divine destiny.

The Creeds of Christendom with a History and Critical Notes;

The Greek Plays

A Study Guide and a Teacher ' s Manual Gospel Principles was written both as a personal study guide and as a teacher ' s manual. As you study it, seeking the Spirit of the Lord, you can grow in your understanding and testimony of God the Father, Jesus Christ and His Atonement, and the Restoration of the gospel. You can find answers to life ' s questions, gain an assurance of your purpose and self-worth, and face personal and family challenges with faith.

Latter-Day Christianity

This open access book explores commentaries on an influential text of pre-Copernican astronomy in Europe. It features essays that take a close look at key intellectuals and how they engaged with the main ideas of this qualitative introduction to geocentric cosmology. Johannes de Sacrobosco compiled his Tractatus de sphaera during the thirteenth century in the frame of his teaching activities at the then recently founded University of Paris. It soon became a mandatory text all over Europe. As a result, a tradition of commentaries to the text was soon established and flourished until the second half of the 17th century. Here, readers will find an informative overview of these commentaries complete with a rich context. The essays explore the educational and social backgrounds of the writers. They also detail how their careers developed after the publication of their commentaries, the institutions and patrons they were affiliated with, what their agenda was, and whether and how they actually accomplished it. The editor of this collection considers these scientific commentaries as genuine scientific works. The contributors investigate them here not only in reference to the work on which it comments but also, and especially, as independent scientific contributions that are socially, institutionally, and intellectually contextualized around their authors.

The History of Clitiphon and Leucippe

The Book of Greek and Roman Folktales, Legends, and Myths

Greek religion is filled with strange sexual artifacts - stories of mortal women's couplings with gods; rituals like the basilinna's "marriage" to Dionysus; beliefs in the impregnating power of snakes and deities; the unusual birth stories of Pythagoras, Plato,

and Alexander; and more. In this provocative study, Marguerite Rigoglioso suggests such details are remnants of an early Greek cult of divine birth, not unlike that of Egypt. Scouring myth, legend, and history from a female-oriented perspective, she argues that many in the highest echelons of Greek civilization believed non-ordinary conception was the only means possible of bringing forth individuals who could serve as leaders, and that special cadres of virgin priestesses were dedicated to this practice. Her book adds a unique perspective to our understanding of antiquity, and has significant implications for the study of Christianity and other religions in which divine birth claims are central. The book's stunning insights provide fascinating reading for those interested in female-inclusive approaches to ancient religion.

Aischylou Hepta epi Theias

This study of various female deities of Graeco-Roman antiquity is the first to provide evidence that primary goddesses were conceived of as virgin mothers in the earliest layers of their cults. By taking feminist analysis of divinities further, this book provides a fresh angle on our understanding of these deities.

Classical Literature

With the rapid and visible growth of the Church of Jesus Christ of Latter-day Saints, it was inevitable that doctrinal differences would arise between the Latter-day Saints and people of other faiths. Members of the LDS Church profess to be Christians, yet others doubt or do not understand this claim. The contributors to Latter-day Christianity hope that the 10 essays contained in this full-color, illustrated book will help Latter-day Saints who want to explain their beliefs and will be useful to people outside the LDS Church who want a simple and clear statement of those beliefs. The essays address such topics as whether Latter-day Saints are Christian and what they believe about God, the Bible, personal revelation, human deification, salvation, and proselytization.

Tyndale Bible

As Hawk lies on the bottom of the pool paralyzed he realizes the gypsy was right again. How long can he hold his breath before someone notices? Will he be able to pull through this to finish the remaining predictions? Greg Hawk's memoir of a life's adventure takes a drastic turn at the end of a divorce as he listens to a gypsy lady in New Zealand predict things on the path ahead. Every obstacle on his path in life has put him on another tangent of learning and struggle, at times driving him to the edge of defeat. During these years, death seemed to be a constant companion as he witnessed it, as well as facing it personally. As a soldier, a husband, a divorcee, a partner of a successful construction business in Denver, owner of Fantasy Dive Charters in Australia, to being a treasure hunter in the mountains and desert of the Southwest, he faced many self-imposed challenges."
