Biblical Hebrew

Students can flourish in their study of biblical Hebrew if they are trained from the outset to read and explain biblical texts effectively. In this introductory textbook, Professor William Fullilove teaches language basics alongside exegetical skills typically reserved for more advanced courses. His unique methodology allows students to gain rapid insight into the value of their Hebrew study. Includes grammar, reading, and exegetical exercises.

Introduction to the Hebrew Bible

Jews call the Hebrew Scriptures the “Tanakh” and Christians call them the “Old Testament.” It doesn't take long to see that Jews and Christians view the same set of books differently and interpret these scriptures in unique and at times conflicting ways. The Hebrew Bible for Beginners introduces students to the tremendous influence the Hebrew Bible has had on western society for over two millennia and explores the complexities of reading ancient religious literature today. The book also addresses how certain modern critical approaches may initially be alarming, indeed even shocking, to those who have not been exposed to them, but it tackles the conversation in a respectful fashion. Avoiding jargon and convoluted prose, this highly accessible volume provides textboxes, charts, a timeline, a glossary, and regularly includes artistic renderings of biblical scenes to keep lay and beginning readers engaged.

Ancient Hebrew Periodization and the Language of the Book of Jeremiah

An Introduction to Biblical Hebrew Syntax

In *Early Biblical Hebrew, Late Biblical Hebrew, and Linguistic Variability*, Dong-Hyuk Kim offers a sociolinguistic evaluation of the issue of the linguistic dating of biblical texts.

Reading Biblical Hebrew

A Guide to Biblical Hebrew Syntax introduces and abridges the syntactical features of the original language of the Hebrew Bible/Old Testament. An intermediate-level reference grammar for Biblical Hebrew, it assumes an understanding of elementary phonology and morphology, and it defines and illustrates the fundamental syntactical features of Biblical Hebrew that most intermediate-level readers struggle to master. The volume divides Biblical Hebrew syntax and morphology, into four parts. The first three cover the individual words (nouns, verbs, and particles) with the goal of helping the reader move from morphological and syntactical observations to meaning and significance. The fourth section moves beyond phrase-level phenomena and considers the larger relationships of clauses and sentences. Since publication of the First Edition, research on Biblical Hebrew syntax has substantially evolved. This new edition incorporates these developments through detailed descriptions of grammatical phenomena from a linguistics approach. It retains the labels and terminology used in the First Edition to maintain continuity with the majority of entry-level and more advanced grammars.

Introduction to Classical Ethiopic (Geʿez)

Designed to engage the Hebrew text and reinforce patterns and principles of Hebrew grammar and syntax, this resource expertly guides intermediate Hebrew students. Answers to all questions are provided, and both a useful parsing guide and glossary are also included.

Biblical Hebrew Reference Grammar

Advances in the Study of Biblical Hebrew and Aramaic by Benjamin J. Noonan examines issues of interest in the current world of Biblical Hebrew scholarship and their impact on understanding the Old Testament; it provides an accessible introduction for students, pastors, professors, and commentators to understand these important issues.

Beginning Biblical Hebrew

This Supplement is intended to provide a diverse and extensive range of additional practice material for use in mastering the grammatical content of *Introducing Biblical Hebrew* by Allen P. Ross (Grand Rapids: Baker Academic, 2001). It is based upon the writing system,

vocabulary, morphology and syntax of Biblical Hebrew as these are presented in Introducing Biblical Hebrew, running parallel to the first 41 chapters of that volume. Chapters 1-6 deal progressively with the introductory issues of writing and pronouncing Hebrew, with practice based upon Genesis 1-2. Three types of exercise accompany the study of vocabulary, morphology and syntax: parsing of isolated forms, with emphasis upon the verb (chapters 10-41); two sections of sentences composed in Hebrew, the first focussed upon the material of the current chapter and the second containing longer sentences drawn from all the material encountered up to that point (chapters 3-41, with isolated phrases initially); and three sections of passages drawn directly from the Hebrew Bible (chapters 9-41) - isolated verses containing salient features of the grammar studied at that point, longer prose passages (Gen 1:1-2:4, 22:1-19, Deut 8-11, Ruth 1-4, Gen 37:12-36), and short poetic passages from the Psalms (Ps 1, 121, 133, 100, 103, 19, 113, 27, 91, 34, 8). Unfamiliar forms and syntax in the OT passages are footnoted, making it possible to read them without recourse to additional language tools. David M. Clemens (PhD, University of Chicago) is a lecturer in Hebrew at Regent College.

INTRO TO HEBREW

Meeting the need for a textbook for classroom use after first year Hebrew grammar, Waltke and O'Connor integrate the results of modern linguistic study of Hebrew and years of experience teaching the subject in this book. In addition to functioning as a teaching grammar, this work will also be widely used for reference and self-guided instruction in Hebrew beyond the first formal year. Extensive discussion and explanation of grammatical points help to sort out points blurred in introductory books. More than 3,500 Biblical Hebrew examples illustrate the points of grammar under discussion. Four indexes (Scripture, Authorities cited, Hebrew words, and Topics) provide ready access to the vast array of information found in the 40 chapters. Destined to become a classic work, this long-awaited book fills a major gap among modern publications on Biblical Hebrew.

The Hebrew Bible for Beginners

Introduction to Biblical Hebrew

The Routledge Introductory Course in Biblical Hebrew provides a comprehensive introduction to Biblical Hebrew language and texts. Combining a fresh and innovative approach with an in-depth treatment of the language, it presents the essentials of biblical grammar and vocabulary in an engaging and systematic way. Unlike other Biblical Hebrew courses, it is structured around a series of vibrant and memorable stories, with each story reinforced by grammar explanations, supportive exercises, and a concluding genuine biblical text. This coherent focus encourages students to engage with the text actively and facilitate their mastery of the language to the full. Features include: Forty units covering all the topics expected in a first-year Biblical Hebrew course, including the Hebrew writing system, pointing rules, nouns and adjectives, parsing, mastery of strong and weak verb paradigms and full attention to syntax Clear and detailed grammar explanations

supported by plentiful examples An extensive assortment of varied and stimulating exercises designed to reinforce new grammar and develop students' ability to use Biblical Hebrew actively Incorporation of a wide range of genuine biblical texts to familiarise students with the main biblical narrative cycles and to equip them with the ability to read authentic material from the earliest stages of learning A free companion website (www.routledge.com/cw/kahn) offering a wealth of additional instructor and student resources, including many extra exercises and biblical texts, flashcards to test knowledge, a vocabulary guide listing words by part of speech, a full answer key, translations of all the stories and biblical texts, a sample syllabus, coursework assignments covering the entire contents of the course and audio recordings of the stories and biblical texts Coherent chapter organisation to consolidate and reinforce learning consistently at each step of the course Grammar summary, two-way glossary and subject index presented at the back of the book for easy access A user-friendly text design with original illustrations and clear presentation of the Hebrew script Written by an experienced instructor and extensively trialled at UCL, The Routledge Introductory Course in Biblical Hebrew will be an essential resource for all students beginning to learn Biblical Hebrew.

Genesis, Exodus

Biblical Hebrew: A Compact Guide, by Miles Van Pelt, is a handy, at-a-glance reference with summaries of Hebrew grammar, paradigms, a lexicon, and more. Great for consulting during translation and exegesis work.

Introduction to the Hebrew Bible

Introducing Biblical Hermeneutics

Achieving the right balance of amount of information, style of presentation, and depth of instruction in first-year grammars is no easy task. But Mark Futato has produced a grammar that, after years of testing in a number of institutions, will please many, with its concise, clear, and well-thought-out presentation of Biblical Hebrew. Because the teaching of biblical languages is in decline in many seminaries and universities, Futato takes pains to measure the amount of information presented in each chapter in a way that makes the quantity digestible, without sacrificing information that is important to retain. The book includes exercises that are drawn largely from the Hebrew Bible itself. Fourth printing, 2012.

Introducing Biblical Hebrew

This work is intended to serve as a user-friendly and up-to-date source of information on the morphology, syntax, semantics and pragmatics of Biblical Hebrew verbs, nouns and other word classes (prepositions, conjunctions, adverbs, modal words, negatives, focus particles, discourse markers, interrogatives and interjections). It also contains one of the most elaborate treatments of Biblical Hebrew word order yet

published in a grammar. This reference grammar will be of service to students who have completed an introductory or intermediate course in Biblical Hebrew, and also to more advanced scholars seeking to take advantage of traditional and recent descriptions of the language that go beyond the basic morphology of Biblical Hebrew.

The Routledge Introductory Course in Biblical Hebrew

What's the best way to learn a new language? By approaching it not as a series of facts to memorize but as something alive, with a personality you can get to know and tendencies you can sometimes predict. Designed for long-term retention, Learning Biblical Hebrew focuses on helping students understand how the Hebrew language works and providing a solid grounding in Hebrew through extensive reading in the biblical text. Introduces advanced concepts in a form accessible to beginning students. Focuses on historic patterns and changes that minimize memorization. Focuses on how the language works for long-term retention. Encourages mastery of paradigms from a handful of representative forms. Includes extensive translation from the third week of class. Prepares students for translation of unedited biblical texts by the end of first semester. Emphasizes reading comprehension rather than decoding. Promotes a strong oral component to enhance language competence. Written for first-year and second-year Hebrew students, grammar is laid out to present comprehensive concepts to first-year students and then to aid in review and deeper understanding for second-year students. Though written for Hebrew competency, Learning Biblical Hebrew is also well-suited for students with different learning styles and objectives.

Advances in the Study of Biblical Hebrew and Aramaic

"Elementary Biblical Hebrew: An Introduction to the Language and its History gives students a general overview of the language and focuses on its main characteristics. While many standard textbooks assume that students plan to study the language academically and in-depth, Elementary Biblical Hebrew avoids a heavy-handed academic approach and instead emphasizes the basics of general understanding. Students are exposed to commentaries and word studies that provide a strong linguistic foundation while introducing Biblical Hebrew's primary components. Chapters include strategies and hints for learning the language, as well as activities and exercises that allow for application. Elementary Biblical Hebrew takes an ancient language and places it in an engaging, relevant context to make it come alive. The text is enriched with charts, illustrations, and full-color photography. Elementary Biblical Hebrew is an excellent choice for courses in the language, as well as introductory or survey courses on the Old Testament. Chet Roden holds a Ph.D. in Biblical studies and the Old Testament from Southeastern Baptist Theological Seminary. Dr. Roden is now an associate professor and chair of the Department of Biblical Studies at Liberty University School of Divinity. His writing has appeared in the Near East Archaeological Society Bulletin, the Midwestern Journal of Theology, and the Journal of the Evangelical Theological Society. In 2015 and 2016, Dr. Roden participated in archaeological field work, excavating water systems and exploring Iron Age gates and fortifications systems, at the Tel Gezer archaeological site in Israel."

Introduction to Biblical Hebrew

A tested approach to learning biblical Hebrew in an ideal package for the first-year Hebrew student. This clear, accurate, and pedagogically sound textbook emphasizes the basics: Hebrew phonology (sounds) and morphology (forms). This grammar does not use jargon or technical language, but uses terms easily understood and remembered so biblical Hebrew can be used with regularity and authority.

Supplementary Exercises for Introducing Biblical Hebrew by Allen P. Ross

An Introduction to the grammar and morphology of Biblical Hebrew.

A Guide to Biblical Hebrew Syntax

John J. Collins's Introduction to the Hebrew Bible is one of the most reliable and widely adopted critical textbooks at undergraduate and graduate levels alike, and for good reason. Enriched by decades of classroom teaching, it is aimed explicitly at motivated students, regardless of their previous exposure to the Bible or faith commitments. The approach is ecumenical, in the sense that it seeks not to impose any particular theological perspective but to provide information and raise questions that should be relevant to any student. Collins proceeds through the canon of the Old Testament and the Apocrypha, judiciously presenting the current state of historical, archaeological, and literary understanding of the biblical text, and engaging the student in questions of significance and interpretation for the contemporary world. The third edition is presented in a new and engaging format with new maps and images. An index has been added to the volume for the first time.

Grammatical Concepts 101 for Biblical Hebrew

Renowned scholar Craig Bartholomew, coauthor of the bestselling textbook *The Drama of Scripture* (75,000 copies sold), writes in his main area of expertise--hermeneutics--to help seminarians pursue a lifetime of biblical interpretation. Integrating the latest research in theology, philosophy, and biblical studies, this substantive hermeneutics textbook is robustly theological in its approach, takes philosophical hermeneutics seriously, keeps the focus throughout on the actual process of interpreting Scripture, and argues that biblical interpretation should be centered in the context and service of the church--an approach that helps us hear God's address today.

Learning Biblical Hebrew

More than 80 years have passed since Bauer and Leander's historical grammar of Biblical Hebrew was published, and many advances in comparative historical grammar have been made during the interim. Joshua Blau, who has for much of his life been associated with the Academy of the Hebrew Language in Jerusalem, has during the past half century studied, collected data, and written frequently on various aspects of the Hebrew language. *Phonology and Morphology of Biblical Hebrew* had its origins in an introduction to Biblical Hebrew first written some 40 years ago; it has now been translated from Modern Hebrew, thoroughly revised and updated, and it distills a lifetime of

knowledge of the topic. The book begins with a 60-page introduction that locates Biblical Hebrew in the Semitic family of languages. It then discusses various approaches to categorization and classification, introduces and discusses various linguistic approaches and features that are necessary to the discussion, and provides a background to the way that linguists approach a language such as Biblical Hebrew—all of which will be useful to students who have taken first-year Hebrew as well those who have studied Biblical Hebrew extensively but have not been introduced to linguistic study of the topic. After a brief discussion of phonetics, the main portion of the book is devoted to phonology and to morphology. In the section on phonology, Blau provides complete coverage of the consonant and vowel systems of Biblical Hebrew and of the factors that have affected both systems. In the section on morphology, he discusses the parts of speech (pronouns, verbs, nouns, numerals) and includes brief comments on the prepositions and waw. The historical processes affecting each feature are explained as Blau progresses through the various sections. The book concludes with a complete set of paradigms and extensive indexes. Blau's recognized preeminence as a Hebraist and Arabist as well as his understanding of language change have converged in the production of this volume to provide an invaluable tool for the comparative and historical study of Biblical Hebrew phonology and morphology.

Introducing Biblical Hebrew

Teach your students how to read the Hebrew Bible and mine the rich Biblical text for significant literary, historical, and thematic meanings with this bestselling introduction to the Old Testament. Written by leading scholar Barry Bandstra, **READING THE OLD TESTAMENT: INTRODUCTION TO THE HEBREW BIBLE**, Fourth Edition combines engaging, conversational prose, visual elements such as maps, timelines and artwork, and innovative technology. The book actively applies recent literary, rhetorical, and structural studies that shed light on art, design, coherence, characterization, theme, and other literary features of the Hebrew Bible. Marginal call-outs connect the text to technology resources for the strong Old Testament introduction your students need. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

A Basic Introduction to Biblical Hebrew, with CD

The best of both deductive and inductive approaches introducing students to the basics of Biblical Hebrew.

Early Biblical Hebrew, Late Biblical Hebrew, and Linguistic Variability

Several Hebraists of the last decade have called for the inclusion of discourse-level issues in introductory studies of Biblical Hebrew. In *Learning Biblical Hebrew*, Bryan Rocine has written a first-year teaching grammar for Biblical Hebrew prose, taking the student from basic pronunciation forward. Students who have completed introductory courses in Biblical Hebrew often voice well-founded frustrations. They know some of the parts of the language, but they can-not read biblical text with any nuanced understanding. Rocine seeks to gain, for first-year students, the greatest possible advantage for their one-year's efforts. The course is comprised of fifty lessons and eight readings, which

run concurrently with lessons 1-50. Each lesson is based on an actual biblical "verse" that illustrates the topic(s) for the lesson. The goals for each lesson are stated at the outset. Almost every lesson contains review material from the previous lesson before introducing the new material. Also for review, the student is given cross-referencing to previously learned material throughout the book. Every lesson has assignments of two types: (1) speed drills in which the student practices the lesson's materials as illustrated in examples containing minimal differences and (2) translation exercises taken from actual biblical texts.

Learning Biblical Hebrew

NEW 2018 EDITION! This introductory textbook covers the basics of Hebrew grammar, then it leads the student through readings from the Old Testament. The readings review, apply, and supplement earlier material, and insure that the student can enjoy the Hebrew Bible once the course is finished. Written with the learning needs of the student in mind, grammatical rules are kept to a minimum, with more comprehensive lists in the appendices. Features not found in other beginning Hebrew grammars include: 1. A section on verbless clauses; 2. Complete declensions of the prepositions with pronominal suffixes; 3. English translations of verb conjugations; 4. Successive verb conjugations are compared in parallel columns; 5. Description of verb syntax that utilizes recent advances; 6. Appendices describing the Verb Stems, Syntax, Parsing, etc. Also available are a Workbook (ISBN 978-1-935931-76-8) and an Answer Key (ISBN 978-1-935931-75-1).

A Handbook to Biblical Hebrew

Linguistics expert and long-time educator Hackett offers a robust introduction to biblical Hebrew grammar and the Masoretic text. All exercises from Hebrew to English are taken from the Old Testament: those in earlier lessons with slight modification suitable to the experience of the student; those exercises found in the later lessons are taken from the Masoretic text of the Old Testament without modification, but with footnotes to explain unusual or advanced formations. Classroom tested and suitable for self-study as well, this quick-moving one-semester course (30 lessons) features clear, readable explanations, exercises, and examples that provide students with an effective foundation in original language usage. This text-book is also suitable for an entire first-year's study of Biblical Hebrew conducted at a slower pace. Course work includes an overview of the history of the Hebrew Bible; deductive lessons on recognition, drawing, and pronunciation of consonants and vowels; memorization and recitation of the alphabet; and proper spelling of words; as well inductive experience in translating biblical passages. Excellent textbook for students who wish to progress beyond using simple reference works and ideal for those who wish to read the Hebrew Bible deeply, widely, and accurately, as well as for any who wish to pursue advanced studies in the Hebrew Scriptures.

Introduction to Biblical Hebrew

This book is designed to cover one year's work in Hebrew leading up to a full understanding of the language. It has been used by the author

with his students for many years and the published text is the result of testing and refining over these years. Every attempt has been made to make the grammar clear and simple. For example, all Hebrew words are transliterated, as well as being given in the original for the first three-quarters of the book. The grammatical discussion is made as unsophisticated as possible for it is the author's intention that this book should also be of use to those who study Hebrew without a teacher.

Introduction to Hebrew

Written to facilitate study in Kelley's widely-used Biblical Hebrew: An Introductory Grammar, this handbook provides a complete answer key to the exercises in the grammar as well as practical helps, footnotes, word lists, test suggestions, and other supplementary material--all written to free up valuable class time and to aid individuals studying Hebrew on their own.

Reading the Old Testament: Introduction to the Hebrew Bible

Introduction to the Hebrew Bible is one of the most reliable and widely adopted critical textbooks at undergraduate and graduate levels alike. The text is aimed explicitly at motivated students regardless of their previous exposure to the Bible or faith commitments. Collins proceeds through the canon of the Old Testament and the Apocrypha, judiciously presenting the current state of historical, archaeological, and literary understanding of the biblical text, and engaging the student in questions of significance and interpretation for the contemporary world. The revised second edition is now presented in a refreshing new format.

Biblical Hebrew Syntax

In this revised edition of a proven resource, a recognized expert in biblical Hebrew provides a readable, linguistically savvy guide to navigating basic grammatical concepts. Designed to complement any standard Hebrew grammar, the book revisits English grammar in order to teach concepts that are especially relevant to Hebrew. Each chapter focuses on an individual concept, first explaining how it works in English, then illustrating it in biblical Hebrew. Abundant English and Hebrew examples illustrate each concept, most of them visually analyzed. The book's clear design and attractive layout will appeal to visual learners.

A Workbook for Intermediate Hebrew

Internationally recognized Hebrew linguist Robert Holmstedt offers students a cutting-edge analysis of Biblical Hebrew syntax. Holmstedt has spent two decades researching the linguistic structure of Biblical Hebrew and is actively engaged in scholarly discussions about Hebrew language and instruction. This addition to the Learn Biblical Hebrew series addresses all major issues of Biblical Hebrew syntax and is informed by the latest insights. It is suitable as a supplement to any Hebrew course.

Phonology and Morphology of Biblical Hebrew

Providing students, pastors and lay people with up-to-date, accessible evangelical scholarship on the Old and New Testaments. Designed to equip pastors and Christian lay leaders with exegetical and theological knowledge to better understand and apply God's word by presenting the message of each passage as well as an overview of other issues surrounding text. Includes the entire NLT text of Genesis and Exodus. John N. Oswalt, Ph.D., Brandeis University, is Research Professor of Old Testament at Wesley Biblical Seminary in Jackson, Mississippi. He was the Old Testament editor of the Wesley Bible and also served as consulting editor for the New International Dictionary of Old Testament Theology and Exegesis. He has written six books, including a two-volume commentary on Isaiah in the New International Commentary on the Old Testament series and commentary on Isaiah in the New International Version Application Commentary series. He has been a member of the translation teams for the New International Version and the New Living Translation.

Beginning Biblical Hebrew

This innovative textbook by two leading experts in Biblical Hebrew combines the best of traditional grammars, new insights into Hebrew linguistics, and a creative pedagogical approach. The material has been field tested and refined for more than a decade by the authors, who are actively engaged in Biblical Hebrew discussions and research. The book includes fifty brief grammar lessons with accompanying workbook-style exercises, appendixes providing more detailed explanations, and a full-color reader--bound at the back of the book for right-to-left reading--that incorporates comics, line drawings, and numerous exercises, all in Hebrew. This work offers a realistic approach to beginning Hebrew, helping students comprehend texts without overloading them with too much information, and it can be adapted to either one-semester or full-year courses. An accompanying website through Baker Academic's Textbook eSources offers helpful resources for students and professors. Resources for students include flash cards and audio files. Resources for professors include sample quizzes, sample exams, sample lesson plans, vocabulary cards, and a full-color printed instructor's manual.

Elementary Biblical Hebrew

In The development of the Biblical Hebrew Vowels, Benjamin Suchard establishes phonetically regular sound laws comprehensively describing the Tiberian Biblical Hebrew reflexes of the Proto-Northwest-Semitic vowels.

Basics of Biblical Hebrew Grammar

In Ancient Hebrew Periodization and the Language of the Book of Jeremiah, Aaron Hornkohl attempts to date this biblical work, both as a whole and according to the constituent layers of which it is apparently composed, on the basis of diachronic linguistic typology.

The Cambridge Biblical Hebrew Workbook

This workbook can be used together with any elementary Biblical Hebrew grammar, by students at colleges, seminaries or universities. It applies many of the tools of modern language acquisition to make learning this classical language an active and inspiring process. Well-known Hebrew names are used as a pedagogical aid to memorising grammar and vocabulary. Original biblical texts are focused upon. The exercises are based on a stock of frequently used words which is gradually enlarged. The vocabulary and grammar learnt early on are regularly revised and reinforced in later exercises. The student is carefully guided through the exercises by means of boxed notes on key points. A key to the exercises is included. The translations provided follow the Hebrew text very closely. This workbook enables students to develop their understanding of the general systematic sound changes in Biblical Hebrew, progressively providing a stable foundation and deeper insight into the language.

Learn Biblical Hebrew

Features of Basics of Biblical Hebrew Grammar, Second Edition text: * Combines the best of inductive and deductive approaches * Uses actual examples from the Hebrew Old Testament rather than 'made-up' illustrations * Emphasizes the structural pattern of the Hebrew language rather than rote memorization, resulting in a simple, enjoyable, and effective learning process * Colored text highlights particles added to nouns and verbs, allowing easy recognition of new forms * Chapters Two (Hebrew Vowels), Nine (Pronominal Suffixes), Seventeen (Waw Consecutive), Eighteen (Imperative, Cohortative, and Jussive), and Twenty-Three (Issues of Sentence Syntax) are revised and expanded * Section of appendices and study aids is clearly marked for fast reference * Larger font and text size make reading easier * Updated author website with additional Hebrew language resources and product information (www.basicsofbiblicalhebrew.com) Features of updated CD-ROM: * Full answer key to the accompanying workbook (compatible with Windows and Macintosh) * Scripture indexes to both the grammar and the workbook * FlashWorks™, a fun and effective vocabulary-drilling program from Teknia Language Tools * Links to additional resources accessible with internet connection

The Development of the Biblical Hebrew vowels

This text is designed to provide a detailed introduction to the grammar and basic vocabulary of classical Ethiopic. The material covered will instruct the beginning Ethiopicist and fine tune the dedicated Semitist into the details of this important cognate language.

Invitation to Biblical Hebrew

Anyone interested in learning to read the Hebrew Bible in its original language will find within the pages of this book all the resources needed to begin this wonderful journey. The book is laid out in four parts. The first part teaches the Hebrew alphabet through a series of lessons. The

second part teaches word and sentence structure of the Hebrew language by breaking down each Hebrew word in Genesis chapter one, verses one through five. The Hebrew text of Genesis chapter one is provided for reading and comprehension practices in part three. The fourth part of the book contains charts and dictionaries of prefixes, suffixes, words and roots of the Hebrew language to assist the reader with vocabulary definitions and comprehension. Within a short amount of time the Hebrew student will soon be reading the Bible through the eyes of the author rather than the opinions of a translator. ABOUT THE AUTHOR Jeff Benner has had a long interest in the Hebrew language of the Bible and in 1996 he began researching the ancient pictographic alphabet used by the Hebrew people and other Semitic tribes. He has made many significant discoveries linking the ancient Hebrew culture with the ancient Hebrew language and alphabet. In 1999 Jeff founded the "Ancient Hebrew Research Center" to research and teach Biblical understanding through the alphabet and language to those with little or no Hebrew background. Jeff's current project is the Ancient Hebrew Lexicon of the Bible. This Lexicon defines Hebrew words of the Bible according to their cultural context revealing the original Hebraic meanings of Biblical passages and words.
