The Sheikh's Virgin

This book investigates the political, social, cultural and economic implications of self-translation in multilingual spaces in Europe. Engaging with the 'power turn' in translation studies contexts, it offers innovative perspectives on the role of self-translators as cultural and ideological mediators. The authors explore the unequal power relations and centre-periphery dichotomies of Europe's minorised languages, literatures and cultures. They recognise that the self-translator's double affiliation as author and translator places them in a privileged position to challenge power, to negotiate the experiences of the subaltern and colonised, and to scrutinise conflicting minorised vs. hegemonic cultural identities. Three main themes are explored in relation to self-translation: hegemony and resistance; self-minorisation and self-censorship; and collaboration, hybridisation and invisibility. This edited collection will appeal to scholars and students working on translation, transnational and postcolonial studies, and multilingual and multicultural identities.

Texas was already slipping from the grasp of Mexico when Manuel Mier y Terán made his tour of inspection in 1828. American settlers were pouring across the vaguely defined border between Mexico's northernmost province and the United States, along with a host of Indian nations driven off their lands by American expansionism. Terán's mission was to assess the political situation in Texas while establishing its boundary with the United States. Highly qualified for these tasks as a soldier, scientist, and intellectual, he wrote perhaps the most perceptive account of Texas' people, politics, natural resources, and future prospects during the critical decade of the 1820s. This book contains the full text of Terán's diary—which has never before been published—edited and annotated by Jack Jackson and translated into English by John Wheat. The introduction and epilogue place the diary in historical context, revealing the significant role that Terán played in setting Mexican policy for Texas between 1828 and 1832.

I should've never agreed to this arrangement Thirty days ago, my boss (Mr. Wolf of Wall Street), came to me with an offer I couldn't refuse: Sign my name on the dotted line and pretend to be his fiancée for one month. If I agreed, he would let me out of my employment contract with a "very generous" severance package. The rules were pretty simple: No intimate kissing, no actual sex. Just pretend to love each other for the press, even though I've secretly wanted to knock that sexy smirk off his face since the first day we met. I definitely didn't need to think twice about this. I signed my name and started counting down the seconds to when I would never have to deal with his special brand of ass-holery again. I only made it to one minute We argued the entire four-hour flight to his hometown, failed to make a convincing impression with the welcoming press, and right when I was about to knock that arrogant look off his face in real life? He purposely

dropped his bath towel in front of me, distracting me with his nine-inch cock to "show me who the bigger person was" in our relationship. Then he gave me his trademark smirk once again and asked if I wanted to consummate our marriage. Tragically, this is only day one. We still have 29 more days to go

The Stratagem

Ethics and Aesthetics of Translation engages with translation, in both theory and practice, as part of an interrogation of ethical as well as political thought in the work of three bilingual European authors: Bernardo Atxaga, Milan Kundera and Jorge Semprún. In approaching the work of these authors, the book draws upon the approaches to translation offered by Benjamin, Derrida, Ricœur and Deleuze to highlight a broad set of ethical questions, focused upon the limitations of the monolingual and the democratic possibilities of linguistic plurality; upon our innate desire to translate difference into similarity; and upon the ways in which translation responds to the challenges of individual and collective remembrance. Each chapter explores these interlingual but also intercultural, interrelational and interdisciplinary issues, mapping a journey of translation that begins in the impact of translation upon the work of each author, continues into moments of linguistic translation, untranslatability and mistranslation within their texts and ultimately becomes an exploration of social, political and affective (un)translatability. In these journeys, the creative and critical potential of translation emerges as a potent, often violent, but always illuminating, vision of the possibilities of differentiation and connection, generation and memory, in temporal, linguistic, cultural and political terms.

Worth of Luck

"Wit, passion, and adventure, Elizabeth Boyle has it all!" —Julia Quinn New York Times bestselling RITA® Award winner Elizabeth Boyle is

a wonder, and with *Along Came a Duke*—the first book in her delectable *Rhymes with Love* series based on well-known nursery rhymes—she proves once more that no one writes wittier, more endearing and original historical romance. Returning once more to England during the colorful Regency Era, Boyle transports readers to the small town of Kempton, where a local curse prevents the female residents from wedding—a fact that cannot deter a plucky young heiress who needs to marry to inherit her fortune, as she strikes out for London to wed a rakish and unsuspecting duke. Funny, touching, and wonderfully sensuous, *Along Came a Duke* is a prime example of the exceptional romantic magic that puts Elizabeth Boyle in the same master class as Lisa Kleypas and Christina Dodd.

Chicano Narrative

As Harriet Beecher Stowe's novel *Uncle Tom's Cabin* traveled around the world, it was molded by the imaginations and needs of international audiences. For over 150 years it has been coopted for a dazzling array of causes far from what its author envisioned. This book tells thirteen variants of *Uncle Tom's* journey, explicating the novel's significance for Canadian abolitionists and the Liberian political elite that constituted the runaway characters' landing points; nineteenth-century French theatergoers; liberal Cuban, Romanian, and Spanish intellectuals and social reformers; Dutch colonizers and Filipino nationalists in Southeast Asia; Eastern European Cold War communists; Muslim readers and spectators in the Middle East; Brazilian television audiences; and twentieth-century German holidaymakers. Throughout these encounters, Stowe's story of American slavery serves as a paradigm for understanding oppression, selectively and strategically refracting the African American slave onto other iconic victims and freedom fighters. The book brings together performance historians, literary critics, and media theorists to demonstrate how the myriad cultural and political effects of Stowe's enduring story has transformed it into a global metanarrative with

national, regional, and local specificity.

The Greek's Forbidden Innocent

In September 1781, the captain of the British slave ship *Zong* ordered 133 slaves thrown overboard, enabling the ship's owners to file an insurance claim for their lost "cargo." Accounts of this horrific event quickly became a staple of abolitionist discourse on both sides of the Atlantic. Ian Baucom revisits, in unprecedented detail, the *Zong* atrocity, the ensuing court cases, reactions to the event and trials, and the business and social dealings of the Liverpool merchants who owned the ship. Drawing on the work of an astonishing array of literary and social theorists, including Walter Benjamin, Giovanni Arrighi, Jacques Derrida, and many others, he argues that the tragedy is central not only to the trans-Atlantic slave trade and the political and cultural archives of the black Atlantic but also to the history of modern capital and ethics. To apprehend the *Zong* tragedy, Baucom suggests, is not to come to terms with an isolated atrocity but

to encounter a logic of violence key to the unfolding history of Atlantic modernity. Baucom contends that the massacre and the trials that followed it bring to light an Atlantic cycle of capital accumulation based on speculative finance, an economic cycle that has not yet run its course. The extraordinarily abstract nature of today's finance capital is the late-eighteenth-century system intensified. Yet, as Baucom highlights, since the late 1700s, this rapacious speculative culture has had detractors. He traces the emergence and development of a counter-discourse he calls melancholy realism through abolitionist and human-rights texts, British romantic poetry, Scottish moral philosophy, and the work of late-twentieth-century literary theorists. In revealing how the Zong tragedy resonates within contemporary financial systems and human-rights discourses, Baucom puts forth a deeply compelling, utterly original theory of history: one that insists that an eighteenth-century atrocity is not past but present within the future we now inhabit.

Thirty Day Boyfriend

Why would a Latin Qur'an be addressed to readers who knew no Latin? What happens when translators work on paper rather than parchment? Why would a Jewish rabbi translate a bible for Christians? How can a theorist successfully criticize a version of Aristotle without knowing any Greek? Why were children used to bring down an Amerindian civilization? Why does the statue of Columbus in Barcelona point straight to Israel? Why should a Nicaraguan poet cite a French poem in order to explain a volcano in Nicaragua? This book does more than answer such questions. It uses them to discuss some of the most fundamental and complex issues in contemporary Translation Studies and Cultural Studies. Identifying cultural intermediaries as members of medieval frontier society, it traces the stages by which that society has assisted in the creation of Hispanic cultures. Individual case studies go from the twelfth-century Christian, Islamic and Jewish exchanges right through to the not unrelated complexity of today's translation schools in Spain, mining a history rich in anecdote and paradox. Further aspects trace key concepts such as disputation, the medieval hierarchy of languages, the nationalist mistrust of intermediaries, the effects of decolonization on development ideology, and the difficulties of training students for globalizing markets.
