Facing Demons

"Amphibians are facing an extinction crisis, but getting to the facts has been difficult. "Threatened Amphibians of the World" is a visual journey through the first-ever comprehensive assessment of the conservation status of the world's 6,000 known species of frogs, toads, salamanders, and caecilians. All 1,900 species known to be threatened with extinction are covered, including a description of threats to each species and an evaluation of conservation measures in place or needed. Each entry includes a photograph or illustration of the species where available, a distribution map, and detailed information on range, population and habitat and ecology. Introductory chapters present a detailed analysis of the results, complemented by a series of short essays written by many of the world's leading herpetologists. Appendices include annotated lists of lower risk species and a country-by-country listing of threatened amphibians."--pub. desc.

Threatened Amphibians of the World

Archangels and Ascended Masters is a thoroughly researched book in a lively encyclopedia format, listing 77 divinities from Greek, Roman, Egyptian, Asian, Babylonian, Tibetan, Buddhist, Celtic, Theosophical, New Age, Catholic, Cabalistic, Jewish, and Christian roots. Doreen carefully studied and wrote about the history of each deity, what role they serve today, how they can help us with specific life problems, and how to call upon each one. Doreen spent time in communication with each divinity to ensure that the being was reachable, and to discover the essence of his or her personality and current dealings with the world—and within these pages, she includes a channeled message or impression from each of the ascended masters and archangels. Many of her channelings were conducted at power points throughout the world, such as Stonehenge in England; the Irish coast; Kona, Hawaii; and the New Zealand rain forest. A comprehensive chart lists a number of life situations, such as Addictions, Finding a Soulmate, Emergency Money, Healing Physical Illness, and various personal and family concerns. Beneath each topic is the list of whom to call upon when dealing with that particular

challenge. Doreen also includes prayers to call upon multiple divinities for specific issues such as "increased clairvoyance" and "resolving conflict."

Isospin in Nuclear Physics

This book, assembled to describe and illustrate the emerging field of service design, was brought together using exactly the same co-creative and user-centred approaches you can read and learn about inside. The boundaries between products and services are blurring and it is time for a different way of thinking: this is service design thinking. A set of 23 international authors and even more online contributors from the global service design community invested their knowledge, experience and passion together to create this book. It introduces service design thinking in manner accessible to beginners and students, it broadens the knowledge and can act as a resource for experienced design professionals.

White Knights, Dark Earls

More than three decades after its first publication, Edward Said's groundbreaking critique of the West's historical, cultural, and political perceptions of the East has become a modern classic. In this wide-ranging, intellectually vigorous study, Said traces the origins of "orientalism" to the centuries-long period during which Europe dominated the Middle and Near East and, from its position of power, defined "the orient" simply as "other than" the occident. This entrenched view continues to dominate western ideas and, because it does not allow the East to represent itself, prevents true understanding. Essential, and still eye-opening, Orientalism remains one of the most important books written about our divided world. From the Trade Paperback edition.

Business Model Generation

How can you establish a customer-centric culture in an organization? This is the first comprehensive book on how to actually do service design to improve the quality and the interaction between service providers and customers. You'll learn specific facilitation guidelines on how to run workshops, perform all of the main service design methods, implement concepts in reality, and embed service design successfully in an organization. Great customer experience needs a common language across disciplines to break down silos within an organization. This book provides a consistent model for accomplishing this and offers hands-on descriptions of every single step, tool, and method used. You'll be able to focus on your customers and iteratively improve their experience. Move from theory to practice and build sustainable business success.

Why Nations Fail

An instant New York Times bestseller, Dan Lyons' "hysterical" (Recode) memoir, hailed by the Los Angeles Times as "the best book about Silicon Valley," takes readers inside the maddening world of fad-chasing venture capitalists, sales bros, social climbers, and sociopaths at today's tech startups. For twenty-five years Dan Lyons was a magazine writer at the top of his profession--until one Friday morning when he received a phone call: Poof. His job no longer existed. "I think they just want to hire younger people," his boss at Newsweek told him. Fifty years old and with a wife and two young kids, Dan was, in a word, screwed. Then an idea hit. Dan had long reported on Silicon Valley and the tech explosion. Why not join it? HubSpot, a Boston start-up, was flush with \$100 million in venture capital. They offered Dan a pile of stock options for the vague role of "marketing fellow." What could go wrong? HubSpotters were true believers: They were making the world a better place by selling email spam. The office vibe was frat house meets cult compound: The party began at four thirty on Friday and lasted well into the night; "shower pods" became hook-up dens; a push-up club met at noon in the lobby, while nearby, in the "content factory," Nerf gun fights raged. Groups went on "walking meetings," and Dan's absentee boss sent cryptic emails about employees who had "graduated" (read: been fired). In the middle of all this was Dan, exactly twice the age of the average HubSpot employee, and literally old enough to be the father of most of his co-workers, sitting at his desk on his bouncy-ball "chair."

By examining representations of women on stage and in the many printed materials aimed at them, Karen Newman shows how female subjectivity—both the construction of the gendered subject and the ideology of women's subjection to men—was fashioned in Elizabethan and Jacobean England. Her emphasis is not on "women" so much as on the category of "femininity" as deployed in the late sixteenth and early seventeenth centuries. Through the critical lens of poststructuralism, Newman reads anatomies, conduct and domesticity handbooks, sermons, homilies, ballads, and court cases to delineate the ideologies of femininity they represented and produced. Arguing that drama, as spectacle, provides a peculiarly useful locus for analyzing the management of femininity, Newman considers the culture of early modern London to reveal how female subjectivity was fashioned and staged in the plays of Shakespeare, Jonson, and others.

The Unknown Cultural Revolution challenges the established narrative of China's Cultural Revolution, which assumes that this period of great social upheaval led to economic disaster, the persecution of intellectuals, and senseless violence. Dongping Han offers a powerful account of the dramatic improvements in the living conditions, infrastructure, and agricultural practices of China's rural population that emerged in this period. Drawing on extensive local interviews and records in rural Jimo County, in Shandong Province, Han shows that the Cultural Revolution helped overthrow local hierarchies, establish participatory democracy and economic planning in the communes, and expand education and public services, especially for the elderly. Han lucidly illustrates how these changes fostered dramatic economic development in rural China. The Unknown Revolution documents a neglected side of China's Cultural Revolution, demonstrating the potential of mass education and empowerment for radical political and economic transformation. It is a bold and provocative work, which demands the attention not only of students of contemporary Chinese history but of all who are concerned with poverty and inequality in the world today.

Culture, Leadership, and Organizations reports the results of a ten-year research program, the Global Leadership and Organizational Behavior Effectiveness (GLOBE) research program. GLOBE is a long-term program designed to conceptualize, operationalize, test, and validate a cross-level integrated theory of the relationship between culture and societal, organizational, and leadership effectiveness. A team of 160 scholars worked together since 1994 to study societal culture, organizational culture, and attributes of effective leadership in 62 cultures. Culture, Leadership, and Organizations: The GLOBE Study of 62 Societies reports the findings of the first two phases of GLOBE. The book is primarily based on the results of the survey of over 17,000 middle managers in three industries: banking, food processing, and telecommunications, as well as archival measures of country economic prosperity and the physical and psychological well-being of the cultures studied.

'Who gave the drugs to the Beatles? I didn't invent those things. I bought it from someone who got it from somebody. We never invented the stuff.' - John Lennon

Riding So High charts the Beatles' extraordinary odyssey from teenage drinking and pill-popping, to cannabis, LSD, the psychedelic Summer of Love and the darkness beyond. Drugs were central to the Beatles' story from the beginning. The acid, pills and powders helped form bonds, provided escape from the chaos of Beatlemania, and inspired colossal leaps in songwriting and recording. But they also led to break-ups, breakdowns, drug busts and prison. The only full-length study of the Beatles and drugs, *Riding So High* tells of getting stoned, kaleidoscope eyes, excess, loss and redemption, with a far-out cast including speeding Beatniks, a rogue dentist, a script-happy aristocratic doctor, corrupt police officers and Hollywood Vampires. No one chronicles the hilariously haughty world of the Hamptons better than Parade columnist and bestselling author James Brady. Now, in his second novel of the Hamptons, Brady invites you to take a stroll along Gin Lane, where name-dropping, celebrity spotting, and attempted murder heat up the glistening sands of New York's hottest summer haunt. Everyone from the Southampton's moneyed WASPs to the local church elders has their noses out of joint over the arrival of offensively irreverent morning DJ "Cowboy" Dils-- and his buffoonish entourage of radio sidekicks-- to the perfectly manicured and utterly intolerant Gin Lane. Loud, lewd, and out to ruffle more than a few feathers, Cowboy doesn't expect a block party in his honor, but he certainly doesn't anticipate several attempts on his life. When Parade reporter Beecher Stowe and his lovely partner Alix Dunraven step in to write the hottest story of the summer, their efforts are somewhat sidetracked by a prominent local wedding, a possible visit from the President, and the egregious antics of Cowboy & Co. Now Beecher and Alix are determined to get to the bottom of this sizable sand dune, leaving no shell unturned and no fishy motive unchecked.

Within a couple of decades Kaiser Wilhelm II had led the German Reich into World War and collapse. How did the Kaiser come to have so much power? Using new archival sources, this book analyzes the Kaiser and the nature of his rule. After an original character sketch of the Kaiser, the book then examines the Kaiser's friends and favorites, the neo-absolutist culture of the court and of Berlin society, and the nature of his relationship with the court and with the administrative corps in Prussia and the Reich. A final chapter reveals for the first time the extent of the exiled Kaiser's anti-Semitism.
